

Minimum bead chain run through to raise shade completely (in inches)

Shade Drop Length	ROLLEASE CLUTCH SIZE			
	R-3	R-8	R-16	R-24
36"	42	51	57	78
42"	48	59	66	90
48"	54	66	74	103
54"	59	74	83	114
60"	65	81	91	126
66"	71	88	100	138
72"	76	95	108	150
78"	82	102	116	161
84"	87	109	124	173
90"	92	116	133	184
96"	98	123	141	195
102"	103	129	149	206
108"	108	136	157	218
114"	113	142	164	229
120"	118	149	172	240
126"	123	155	180	250
132"	128	162	188	261
138"	133	168	195	272
144"	137	174	203	283

NOTE: This table shows the length of chain that runs through the clutch to raise the shade completely, this is important in selecting chain length when a stop ball will be installed. **IMPORTANT:** The drop length of the chain will be slightly less than one-half the length shown in the table.
